Caterpillar D5N LGP Bulldozer

- The D5N LGP offers excellent control and response combined with power and durability of a larger machine.
- The machine's Finger Tip Control combines steering, direction and gear selection into a single system.
- Cat's powerful six cylinder 3126 B engine features electronic direct injection to maximise performance and power.
- The elevated final drive offers extended power train life and increased durability.
- The LGP (Low Ground Pressure) configuration offers wider track shoes, longer track frame and wider gauge, increasing track contact area and maximising floatation.
This results in a ground pressure of only 32 kilopascal (4.7 psi)

Technical Information - Caterpillar D5N LGP

Tractor

Height:	3039mm
Length (Inc blade):	5064mm
Ground clearance:	422mm
Track gauge:	2000mm
Overall width (Inc blade angled 25°):	3043mm

Blade

Digging depth:	415mm
Blade width:	3360mm
Blade height:	1127mm
Maximum tilt:	491mm
Maximum angle (either side):	25°
Blade capacity (SAE):	2.6m ³
