Caterpillar D6N LGP Ripper Bulldozer

- The D6N LGP offers excellent control and response combined with power and durability of a larger machine.
- The machine's Finger Tip Control combines steering, direction and gear selection into a single system.
- Cat's powerful six cylinder 3126 B engine features electronic direct injection to maximise performance and power.
- The elevated final drive offers extended power train life and increased durability.
- The LGP (Low Ground Pressure) configuration offers wider track shoes, longer track frame and wider gauge, increasing track contact area to maximise floatation.
This results in a ground pressure of only 32 kilopascal (4.7 psi)

Technical Information - Caterpillar D6N LGP

Tractor

Height:	3197mm
Length (Inc blade):	5393mm
Ground clearance:	538mm
Track gauge:	2160mm

Blade

Digging depth:	433mm
Blade width:	4080mm
Blade height:	1025mm
Maximum tilt:	598mm
Maximum angle (either side):	25°
Blade capacity (SAE):	3.16m ³
